Meet Patricia

One of the trips that we've been desperate to tell you all about is our experiential art trip in Bali entitled – "**Your Artistic Identity**".

Our teacher Patricia Cabaleiro manages her own highly reputable art school in Singapore and still finds time to lead classes in Germany. With a degree in Fine Art and a Masters in Graphic Design as well as numerous awards and accolades, Patricia is our expert in the field and will guide you a whole host of techniques and imbue an appreciation of colour and your environment.

Depth of colour represents a large part of Patricia's work which captures bountiful life and expression, playful and intoxicating; drawing on her childhood in Brazil with its exotic and energetic culture.

Patricia has an affinity for Indonesia and a deep appreciation for the beauty and spirituality of its islands. Indeed there could be few more inspiring places for an artist who loves colour play. The soaring verdant volcanoes sweeping down to charcoal sand and a boundless blue ocean beneath a backdrop of burnt amber, one of the most vibrant and vivid sunsets around.

Through **Saakalya Travel**, Patricia will guide you on an experiential journey through the medium of art. You're invited to illustrate an inquisitive look into your sense of self. You will explore new techniques to compliment the eclectic Balinese environment.

Work in a relaxed, enjoyable manner, combining morning yoga with art to discover your mind all the more receptive; leading to wonderful expression.
